State of Colorado Tobacco Research Program

Smoking Cessation Among American Indian Elders

Dr. Nez Henderson is the Principal Investigator on a Career Develop Award funded the Colorado Tobacco Research Program. The primary focus of this award is to provide training for Dr. Nez Henderson so that she can develop the skills necessary to establish a broad-based, independent program of research targeting smoking cessation among American Indians and other underserved populations. As part of this training she is implementing a smoking cessation intervention that is culturally appropriate for older Lakota people.
